

(a) Per-character font mapping

Index i	0	1	2	3
PUA code c_i	E000	E001	E002	E003
TrueType cmap glyph	P	r	o	f
PDF /ToUnicode text	S	c	r	e

Code-map procedure

For each payload character u_i , set $c_i = U + E000 + i$.
 $cmap[c_i] = \text{glyph}(v_i)$; $/ToUnicode[c_i] = u_i$.

(b) Assemble the PDF

Payload

instruction or job-matched claims

Encode and draw cover line

8.5-pt text in a 90-pt visible band

Merge with source resume

Original pages and text retained

(c) Two readings

PDF viewer / human
